

act, so if you want to look at what the bill does, look into your bill book and find those original sections. It's on...you know, it becomes the bill in effect. What this does is provides a procedure for informing people about the anatomical gifts and the questions that they will be asked when they go to get their driver's licenses. Those specific questions you will find on page 9 of the committee amendments. Also, this does apply to the state identification card and for you to donate that, you must fill out this form, have your signature and then there is a system for getting a consent at the same time. Senator Hillman, I'm going to yield you the rest of my time since this was your amendment to basically explain how the bill fits together with the committee amendments at this time. Thank you.

SPEAKER BAACK: Senator Hillman.

SENATOR HILLMAN: Mr. Speaker, members of the body, basically what it does is it changes the process just a little bit to insist in the anatomical gift program. What it would do right now, it creates an avenue to, number one, educate the public on donating organ and tissues. The anatomical gift information will be made known to each person that is applying for either a new or renewal of a driver's license, identification card and a commercial driver's license. Now those last two categories, the state identification card and commercial driver's license are two new categories. In the past it would only be a driver's license. That information is in the form of brochure, will be distributed at the time that you apply for the license. It will be prepared, but it will be approved by the Department of Health. It will make sure that everything in there is factual and it will be distributed by the Department of Motor Vehicles to the local officers of the examiners and the Department of Motor Vehicles. This bill also amends and revises the driver's license, commercial driver's license and the state identification card application. Right now there was like a donor card that you fill out, but here you would have questions on an application that are all positive that would look at providing you with more information if you needed it and also if you wish to become a donor. The bill and the amendment also gives the Department of Motor Vehicles the authority to determine the location of the gift information on the driver's license. They would determine where this information goes on the back of the card, but the bill also stipulates that there would be a notification that would be located on the front of the driver's license. It would be like a symbol. Now the
